

MINUTES: OPTIONAL SITE VISIT

RFQ 2026-03 Request for Quotations: PJYCC LED Lighting
Thursday April 2 2026, 10am-12pm

ATTENDANCE

Tim Macnamara, Rondeau Electric 1997
Jordan Welk, Welk Electric

Do you have a site plan or layout of your building?

No, there is no existing site plan or layout. The rink itself is NHL regulation sized.

What is the height of lights from the ice surface to the light fixture?

23 feet.

How do you typically change the bulbs?

A man lift on the ice surface when the ice is out.

Confirm the timeline of the install.

The month of July is open for this install to take place. There may be some wiggle room for the project to go into August but there is a hard stop in mid-to-late August for staff to clean the pad and prep for ice season.
