

MV 2025-16 RFP Engineered Design of Crooked Slide Park Chute and Walkway

INQUIRIES – FINAL

Received via email October 18 2025 @ 3:23 pm

In reviewing the RFP content and documentation, a number of Agency permitting and approval questions have arisen from our review, due to their inclusion of work that is legislated in Ontario for the following:

- Bridge
- Dam
- Building (inclusive of designated structures)
- Guardrail

Could you please supply us with any and all documentation the Township has with respect to consultations, etc. for the proposed replacements with respect to the following that apply or may apply to the project:

- Heritage Act
- Lakes and Rivers Improvement Act
- Environmental – Endangered Species, Fisheries Acts, possibly others
- Technical Standards and Safety Act
- Building Code Act
- Community Recreation Centres Act
- Municipal Act
- Public Transportation and Highway Improvement Act

A clear understanding of the status on the above is required in order to provide an informed proposal response to this RFP.

RESPONSE

The Township has no documents or reports in relation to the mentioned legislation as it pertains to this project.
